Government is aware of the sinister designs of the ISI and has taken all necessary measures to curb its evil designs. It has been regularly sharing the inputs and sensitizing the concerned State Governments and agencies regarding the activities of ISI. In order to prevent infiltration, border fencing and flood lighting has been undertaken along stretches of the Indo-Pakistan and Indo-Bangladesh border, besides strengthening the border management in general, including deployment of Units of Para Military Forces and Army. Through coordinated action, several ISI backed modules have been neutralized all over the country.

The concerned State Governments/Union Territory Administrations have been advised to take appropriate action in affected areas in close coordination with Central and State Agencies to curb such activities.
